Prism Sheet | PRS

- Since the prism is processed directly to an acrylic plate of 2mm thickness, the performance is stable and not easily deformed.
- There are two types of pitch, 0.03mm and 0.05mm of the prism line.
- It can also be used as a Fresnel prism (prism plane).

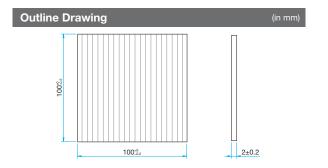

Schematic

Oblique incidence Light

Specification	Opto- Mechar	
Material	CLAREX	Weena
Refractive Index	1.49	_
Tip Angle	45°	Bases
