- M16P1 tapped holes fit a post holder or post. Other tapped holes on the top surface allow for different sized stages to be secured.
- 7 mm slotted bases can be used on both metric and inch hole patterns.
- The base clamp (BSC-60) allows a base plate to be secured at an arbitrary position where there is no tapped hole.

M2

Designed to mount optical units on optical baseplates (OBB) with M2 tapped holes.

Guide

► Optical baseplates (OBB) with M2 tapped holes are also available.
