120 x 120 mm

Others

Hardened steel linear translation stages with integrated bearing ways and a black chrome finish. Our “Extended Contact” technology yields superior stability, stiffness, accuracy, and durability. There are options for metric/inch, micrometer position and fine pitch screws.

- The φ56mm aperture is maintained throughout the rated travel range.

Guide

- Choose from M4, M6, or, 1/4-20 Mounting and tapped holes..
- The suffix “UU” specifies 1/4-20 (Inch) and is able to mount directly onto vibration isolation systems or laboratory benches by using M6 or 1/4-20 screws.

Attention

- Micrometer brackets may extend above the top surface of some stages. Check drawings for more information.
- Note that based upon payload size, rated travel could be reduced.

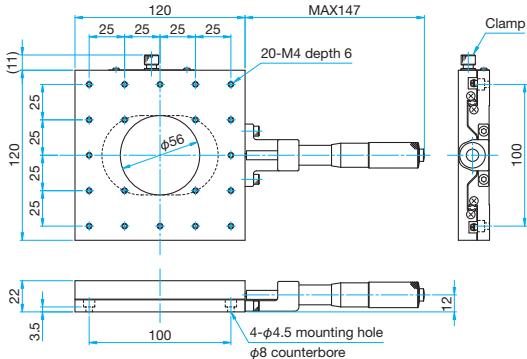

Specifications

| Part Number | METRIC | TSD-1201CH | TSD-1201SH | TSD-1201CH-M6 | TSD-1201SH-M6 |
|-------------------------------------|-------------------|---------------|-------------------------------------|---------------|----------------|
