

2 Axis Stage Controller

GSC-02C

CE

RoHS

Low cost two axis stage controller with built-in 5-phase stepping motor driver.
Compatible with GSC-02A with some exceptions. (Refer to the next page)

- Can be operated by computer control using the RS232C interface. Manual and programmed control is available using optional SJT-02 dedicated controller.

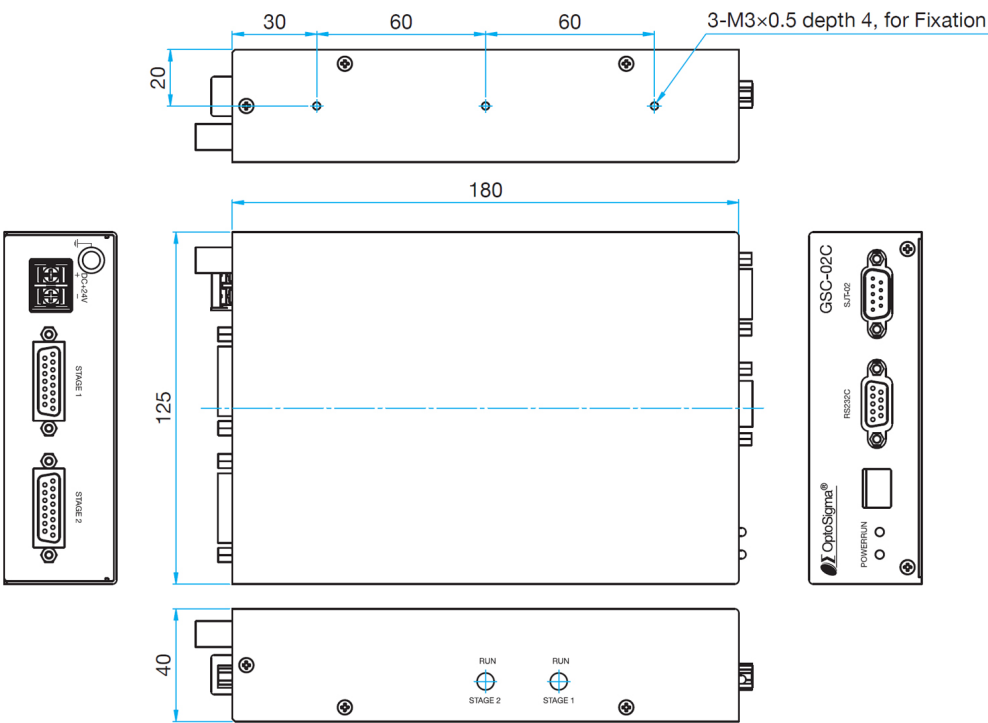

- Guide
- Sample programs are available for download on our website.
 - SG Sample
 - LabVIEW
- Attention
- The GSC-02A requires an external power supply (24VDC, 2A output). The AC-ADP-2427 (AC adapter) can be purchased with the controller or power can be provided by the end user.
